		Name:	MAHEREZO Joseph
QUALIFICATION TITLE	TVET Diploma in Information Technology	Additional info	
MODULE (Code & Name)	ITLAL601 LINUX SYSTEM ADMINISTRATION	Date:	14/01/2026
Competence (Code & Name)	Administer Linux System	Decision	C
LU	1. Install OS	Trainer's Signature:	
PC	1.1, 1.2, 1.3		

Formative assessment (Product evidence)
Instructions:
Duration: 120 Minutes

Task: Before installing any operating system, it is mandatory to check the system requirements. As a learner who has studied the Linux operating system, you are required to check whether your computer meets the necessary system requirements. After confirming that the requirements are met, proceed to install the Linux system (Ubuntu OS). The entire task should be completed within **120 minutes**.

Checklist	Score	
	Yes	No
Indicator 1: System requirements are well checked		
RAM size is checked	✓	
Processor speed is checked		
Hard disk drive space is checked	✓	
Indicator 2: Ubuntu OS is well installed		
Image is downloaded	✓	
The setup is launched	✓	
User account is created Installation is completed	✓	
The installed operating system is working		
Observation	……8……/8
